

**AMENDMENTS TO THE CLAIMS**

1-2. (cancelled)

3. (currently amended) A computer backplane comprising:

- 5        a PCI expansion slot disposed on the backplane ~~for receiving a PCI interface~~  
         ~~card therein for electrical connection;~~  
         a first AGP expansion slot disposed on the backplane, in alignment with the  
         PCI expansion slot to allow that a CPU interface card is able to be  
         connected simultaneously into both of the PCI slot and the first AGP  
10       slot[[,]]; and  
         a second AGP expansion slot having an extension of electricity of the first  
         AGP slot for receiving an external AGP interface card therein for  
         electrical connection.

- 15    4. (original) The computer backplane as described in claim 3, wherein the AGP  
         interface card comprises gold fingers for electrically connecting the AGP interface  
         card to the second AGP expansion slot.

5-7. (cancelled)
